### PA NEWC OBSERVES

Pa Newc notes that an old building which stood on the southwest corner of Market and Cochran alleys has been torn down during the last few days. The structure was one that has stood on that location for a number of years.

Turtle catching seems to be rather tricky and the animals are elusive, but Joseph Hammond, East Washington street, succeeded in luring a nice big fellow onto his hook the other day, and when it was dressed the meat from it weighed eleven pounds and this is being made into delicious soup today at the home of Howard Hammond, Leasure avenue, and will be enjoyed by the family.

To the ladies, remember the Jameson Memorial hospital, while canning your fruit and vegetables this year. The Hospital Aide Society will sponsor a food donation day this fall and every little bit will help to put it over. Lay aside several jars of fruit for the hospital.

Just a year ago today we were in the midst of a hot wave, the temperature standing at 96 and rose to 98 on the two succeeding days, so watch out.

That freakish storm of early this morning (or perhaps it didn't awaken you) came and left in a hurry. It brought wind and rain for a few minutes around 2:30 and then calmed down as before. At first all signs pointed to a rugged storm.

### Baer Hopes To Get Back By Christmas

Here's the latest word from W. J. Baer, New Castle man, who is attending the Democratic National Convention in Chicago, Ill.  
Mr. Fred Rentz, President News, New Castle, Pa., Dear Mr. Rentz:  
Roosevelt went out on the test votes today proving that he will have better than a majority on the first ballot and inside track to the nomination.  
A New Castle boy by the name of Christopher blew in today and I managed to get him a ticket, was also able to get Miss Elsie Calvin a ticket.  
The stadium was packed. Saw a wonderful exhibition of aerobatics last night. There were sixty-nine aeroplanes in the air at one time and they went through all kinds of stunts. Well here's hoping we're back home before Christmas.  
Very truly yours,  
W. J. BAER.

### ROOSEVELT FOR REPEAL PLANK

By RAYMOND I. BORST  
International News Service Staff  
Correspondent  
CHICAGO, June 30.—Governor Franklin D. Roosevelt today came out flatly in favor of the dripping wet prohibition repeal plank adopted by the Democratic National convention.

Through James A. Farley, his campaign manager, the New York governor issued the following statement:  
"The country and the party are to be greatly congratulated on the shortest, clearest and most readable platform in our whole history.  
"I am glad that the will of the party was shown on the majority prohibition plank by such a definite majority.  
"I am for it.  
"It is substantially the same plank as I ran on in this state two years ago."

Work Old Game  
In North Beaver  
Miss Margaret Evans Is Victimized Out Of Her Jewelry

STRANGERS POSE  
AS FARM BUYERS  
Miss Margaret Evans, Mt. Jackson road, prominent North Beaver township resident, at noon today was victimized out of a diamond brooch and diamond ring, valued at several hundred dollars, by two men, who posed as would be purchasers of a farm.

The old game of flashing a supposed big roll of money, which they placed in a box along with her brooch and ring, which were to be security for their money, was used. Boxes were switched on Miss Evans and all that she found in the box was some pills and old envelopes.

The authorities were notified but so far the two men have not been apprehended. Constables Thomas O'Brien, James Ellison and Officers Thomas Lynch and Frank Reynolds are working on the case.

Claiming they were seeking to purchase a farm, the men casually displayed a supposed roll of bills, which was a twenty dollar bill and a couple of one dollar bills wrapped about a roll of paper as an evidence of their ability to make the purchase.

They placed the same in small box and Miss Evans was persuaded to place her diamond brooch and diamond ring in the box as security, she to keep the same. As is always the case, the box was switched.

Both men had brown leather grips or handbags. No. One is described as about 40 years of age, wearing light gray suit, straw hat. He was about 180 pounds in weight and dark complexioned. No. Two man was about 45 years of age, weighing about 180 pounds and wearing a black cap.

At first all signs pointed to a rugged storm.

### James A. Farley Still Confident

(International News Service)  
CHICAGO, June 30.—James A. Farley, Governor Franklin D. Roosevelt's campaign manager, was caught by an International News Service reporter as he emerged from his room early today.

"Are you still confident the governor will go over on the first ballot?" he was asked.  
"We are still working," was the answer.  
"Well, what do you think it will take, two or three ballots?"  
"I think we will be able to do it on the first ballot," Farley replied.  
"Of course, I may be disappointed, but I think we can do it."

Will Rogers says:  
(Special To The News)  
CHICAGO, June, 30.—"Amos and Andy" won the nomination at the great Democratic national convention in Chicago at ten minutes to two Wednesday afternoon.

By nominating them, that takes care of the president and vice president's office both. Brother Crawford, a fellow member of that great fraternity, the Mystic Nights of the Sea, nominated them, the Kingfish and "Lightnin'" seconded.

The resolutions committee were trying to draw up the platform. How they were expected to agree on prohibition in two hours when they hadn't been able to in twelve years was a mystery to everybody but the Democrats.

Yours,  
Will Rogers.

### Pinchot Gives Ainey Chance To Answer Charges Against Him

(International News Service)  
HARRISBURG, June 30.—A letter from Gov. Gifford Pinchot today gave William D. B. Ainey, chairman of the Public Service Commission, the opportunity to answer publicly charges that he had received \$150,000 from the late Thomas E. Mitten, former president of Mitten Management Corporation, which for several years operated Philadelphia's traction lines.

The charges, contained in a lengthy statement filed with Attorney General William A. Schnader, by A. A. Chapman, former Mitten employee, were emphatically denied by Ainey who termed them part of a "blackmail attempt."

Governor Pinchot transmitted to Ainey a copy of the charges and stated he would be "glad to afford" the commission chairman "an opportunity publicly to answer the charges, in person or by counsel, on Monday, July 11, at 2 o'clock, p. m., Eastern Standard Time, in the governor's reception room in the capitol."

Ainey said today he had reached no decision on the governor's offer of an opportunity to defend himself publicly. Governor Pinchot said he would transmit a copy of the Chapman statement to the senate next Tuesday when the assembly reconvenes. Under the status, the governor is powerless to remove a public service commissioner except with the consent of the senate.

Police authorities are active at the present time in turning in those motorists, who persist in running through traffic lights on the yellow and red lights. Quite a few have been ordered in and all are being required to pay fines of three dollars for such an offense.

CHICAGO, June 30.—The Democrats dived off the prohibition springboard with a great splash today, while the rival candidates for the presidential nomination hammered away at each other's lines in quest of delegates.

Whoever gets this nomination, however, whether it be Franklin D. Roosevelt or any of the favorite sons or dark horses, is going to run on a platform so dripping wet that prohibition cannot be otherwise than the uppermost issue of the campaign.

Before sunset the party will be committed to repeal of the 18th Amendment and immediate modification of the Volstead Act pending such repeal a radical change to the people, and by so doing insured adoption of a prohibition plank that is the delight of the wets and the dismay of the dries.

Gov. Roosevelt will enter the presidential balloting either late tonight or tomorrow when the nomination is in sight, but dancing ahead of him like a wil-o-the-wisp.

He will have on the first ballot approximately 650 votes, give or take twenty either way, according to the preliminary estimates. James A. Farley, the field marshal of his forces, thinks he will have 690.

No man in a Democratic national convention has ever got that close to the nomination without getting it. But it requires 770 votes to nominate under the ancient two-thirds rule which the Roosevelt managers so hastily embraced when facing defeat in their effort to abrogate it.

It's probably a good thing for the world it seems, to me, that the weather is just what we get and what it ought to be. For if you had the job or I, of making what we want, the other folks would get a gun and promptly start to hunt. We'd have it rain when other folks would picnic by the shore, and cant you just imagine how those folks would start to roar. We'd have it dry for golfing friends, and farmer folks would cry, oh turn the blooming spigots on, the weather is too dry. It's just as well we cannot make the weather what we say, for we would probably be wrong, it's eighty seven today.

# SECRECY GUARDS PROPOSED STATE CUTS

## Protests Are To Be Blocked

Many Now On State Payroll Begin To Worry About Action

### SEVERAL PROJECTS UNDER HEAVY FIRE

By WILLIAM B. BROWN  
International News Service Staff Correspondent  
HARRISBURG, June 30.—

Hoping to block any concerted protest from those affected, members of the legislature today had thrown a guard of secrecy around details of all plans pertaining to the cuts in government cost which will be affected by legislative enactment. Meanwhile, almost everyone on the state payroll, from the governor's office staff to the corps of charmen, is wondering just where the axe of legislative displeasure will fall.

Many plans for reduction of what now are regarded as "useless appendages" have been discussed but mainly such discussion gets back to several proposals which a large group of members still hope to make effective.

**Greater Council Target**  
Although 150 nicely engraved certificates denoting membership on the Greater Pennsylvania Council have been distributed in the state, that body seems to have fewer friends about the Capitol than any other branch of government. Members of the council get nothing more than the certificate of appointment, but the paid personnel in Harrisburg is coming in for much criticism.

Next in line as a branch of questionable value at present, in the opinion of many legislators, is the aeronautics commission which duplicates to a large extent the work done by federal authorities.

Members unfriendly to the commission charge that in addition to serving no useful purpose it has expended the appropriation at its disposal in acquiring a string of landing fields which really should have been bought by a large commercial line which benefits by their existence.

**Others Scrutinized**  
Discussion of the possibility of abolishing the departments of welfare and revenue continues. In addition, at least a score of departmental bureaus whose work is believed to overlap or to be almost valueless are certain to come before legislative scrutiny.

State workers also are watching the legislature to see whether they will be expected to bear the full brunt of proposed economy. It is known that real economy in the home districts, like consolidation of counties and judicial districts, is regarded in many quarters as the quickest way of lightening local tax burdens but few, if any, members of the legislature care to even discuss such moves openly.

Proposals to reduce teachers' salaries and the pay of judges already are before the legislature but how far they will progress none cares to forecast.

If any real economy moves are made by compulsory legislative enactment, a reduction in the salaries of members is expected. Members of each house now receive \$3,000 for each regular session and \$500 for a special session. Proposals for reduction of the \$3,000 salary extend as far as \$1,000.

Likewise, there is considerable questioning of the need of all the employees who decorate the legislative payroll at \$7 a day during every session. Even the assembly may put itself into the path of the pruning knife now being operated but it has cut to the bone.

shannock creek is progressing rapidly. The road has been improved to make motoring out that way a pleasure.

That painting of the downtown curb light stands a handsome green certainly adds improvement to the East Washington street, North Mill area. Power company workmen were busy yesterday and today with the painting work.

Tomorrow is the big day for the high school alumni when young and old will assemble at the Cathedral and renew old acquaintances and recall scenes and events of the good old high school days. Pa New is told that there will be guests present from as far as California.

The picnic held at Cascade park Wednesday by the members of the Eastern Star was one of the largest held at that resort in some time. Many members came from a distance to take part in the event.

Sometime during the night, there was a refreshing shower. Pa New noted. It lasted for but a few seconds however.

Tomorrow is the first day of the bass fishing season, which many in New Castle have been looking forward to. Bass are fairly plentiful in local streams. The weather should be just about right for the opening day.

Pa New is looking forward to a safe and sane Fourth this year. With fireworks banned in the city, there won't be much noise, and the day will be spent quietly with picnics, golf, etc.

Five Michigan licensed cars, just out of the factory, passed up Jefferson street last evening. Three of them nonchalantly went by the red traffic light at the North street intersection.

Pa New notes what is probably the finest field of corn in the district along the road to East Brook, just beyond the turn down to Ladderwood. It is not only "knee-high" but its much higher than that at the present time. By the Fourth it will probably be shoulder high.

Work is being done on the city tennis plots on Boyles field, and it is evident that the work is being thoroughly done this year. Indications are that the tennis courts will be in fine condition for playing in a few days.

Swarming bees may be all right in their place, but Mr. and Mrs. David Ritchie, South Mill street, did not think the inside of their sedan was the place for a swarm Wednesday afternoon as they were on their way to Connetquot Lake. Just as they were on the outskirts of Greenville, they ran into a swarm of bees and they had a lively time for a few minutes for the bees filled the car and stopped their progress until the bees could be persuaded that an automobile was not a convenient place for them.

From tips that reach Pa New's ears the Ne-Ca-Hi alumni will likely get a chance on Friday night to get their "alma mater" over again. Older grads might do well to refresh their memories if they're to keep up with the more recent graduates.

Today a member of Pa New's staff awakened in a tent situated along a creek where a crowd daily acts as an alarm clock. It was not long until the "Plickers" chirped, and later he espied a red squirrel making his breakfast—off a piece of ivory soap.

Turtles make good soup, and one turtle expert in explaining how to kill them told Pa New he steps on the turtle's back and the turtle shoves his head out. The expert uses a pair of pinchers, grasps the "beak", then uses a knife to cut off the turtle's head.

Beginning Friday black bass fishermen will be on their way to Connetquot Lake, French creek and other places where the "fightin'" fish await soft-shell crabs. However, others will not go to the deep holes until the paths have been made.

According to Deputy Sheriff Reynolds and Alderman Bill Marshall, black bass come in season Friday and must be at least nine inches long. If a person is fortunate he can keep 10 of them if he can catch that many, but the odds against this are about 10 to 1.

**Patrolman Finds Abandoned Auto**  
State Highway Patrolman Sarko today reported to Corporal Lawton, in charge of the local substation of the patrol, that he recovered an abandoned Chevrolet, covered an Ohio license, in a by-road near the bottom of the Mt. Jackson-New Castle highway. It has been placed in a local garage pending identity of the owner.

figures are accepted, the Roosevelt managers were proselyting in the delegations of all the favorite sons and potential dark horses.

The are understood to have offered the vice presidency to Speaker John N. Garner in exchange for his bloc of 90 delegates from Texas and California. They were likewise reported to be flirting with Gov. Albert C. Ritchie for his support. Ritchie probably has more secondary support than any other candidate in the convention if Roosevelt is stopped short of the two-third and the convention is forced to seek another candidate capable of commanding it.

For Missouri's 36 votes, instructed for Jim Reed, and Ohio's 52, instructed for Gov. George White, they have made unceasing forays. But thus far they have not been very successful, except in Missouri where there is talk of them leaving Reed after the first ballot.

The reason for their lack of suc-

cess is not far to seek. Every favorite son is impressed with the idea that if the New York governor is not nominated within three or four ballots he will not be nominated at all. His own delegates will begin to drop away from him after that stage has been reached, and that it then becomes an open fight in which the lightning is liable to strike him.

They will whoop the platform through today—the shortest that any major party ever adopted—and then after hours and hours of nominating speeches they will get down to the real business of this convention, which is to name a candidate for the presidency. Whoever they name will need gum-boots for that platform.

**Lines Wobble**

Stadium, Chicago, June 30.—Both the Roosevelt and the anti-Roosevelt lines were a little wobbly today as delegates to the Democratic National Convention gathered at the stadium to complete action on their dripping wet platform and clear away the oratorical underbrush for the presidential nomination.

Throughout the night and forenoon the rival managers hammered away at each other's lines, the Roosevelt leaders striving for the "less than 100 votes" which they contend are all that is necessary to put over the New York governor early in the balloting; the allies trying to hold their own lines and conduct successful forays into Roosevelt's.

On the surface, the situation had changed but little overnight despite all the maneuvering. The allies were having difficulty holding Jim Reed's 36 Missourians after the first ballot; the Roosevelt leaders were having trouble in Mississippi, Alabama, Iowa and Colorado.

When and if Missouri breaks away from Reed, it seemed likely the delegation would split up between Roosevelt and Governor Albert C. Ritchie of Maryland.

It was reported the Iowa delegation may split between Newton D. Ritchie and Ritchie after the first ballot.

**DESERTION CHARGED IN DIVORCE CASE**

Mrs. Blanche Schrock has filed an application at the prothonotary's office for a divorce from her husband, Dwight W. Schrock, on the grounds of desertion. They were married in October, 1930, and only lived together until the following month.

Any serious in-roads in the Roosevelt lines at this point on the eve of the balloting, might prove fatal to the New York governor's chances. For one thing, it would destroy the bandwagon psychology that his managers are counting on so heavily to push him across the two-thirds mark, which he yet is admittedly short by reaching.

bered among the members of the Troop.

Orders for the movement of the troop to Mt. Gretna have been received. Capt. Harvey Bintrun stated this morning. The advance detail of three enlisted men will leave Tuesday evening at 10:20, while the main body of the troop will follow on Friday, July 8.

During the second week at camp, the troop will participate in a four-day maneuver at Indiantown Gap, where the National Guard will be moved to some time in the future. Two days will be spent on a 20-mile march, and twelve miles will be covered on the other two days. During this time, the men will live out in the open.

As soon as the rodeo is over Sunday, equipment will be packed and final preparations for the departure made.

Sgt. Homer A. Measel will remain with the horses at Mt. Gretna during the two-week period following the encampment.

Corp. Bertram Rick of the Troop will attend gas school during the entire period of the encampment, and will receive his reserve officer's commission, following that. He has served an enlistment with the regular army in addition to the enlistment with the troop.

Capt. Bintrun expects the troop to make the best showing it has ever made at camp, and will be deeply disappointed if the troop does not carry away honors this year.

### County Pays \$10,000 On Borrowed Money

Now Only \$10,000 Remaining Unpaid Of \$60,000 Secured For Poor Relief

County Commissioners this morning authorized County Treasurer William O. Pitts to pay \$10,000 on the remaining \$20,000 of the county's bank loans. The payment is being made out of the Talbot fund quota, received yesterday.

Before the Talbot bill distribution began, the county commissioners were forced to borrow \$60,000 to take care of the poor fund distribution. With the payment authorized today, \$50,000 of this will have been repaid.

It is the intention to liquidate the debt entirely with the next payment of Talbot bill funds. There is some question as to how much more will be received, but it is believed that it will be sufficient to pay off the balance of the indebtedness.

The Talbot bill funds have helped the county out of a very embarrassing situation. County tax payments are now coming in, and the county will be able to meet expenses without borrowing, for several months.

However, if no more state relief is secured, and industrial and business conditions do not pick up by next fall, the county will face another crisis, in spite of the fact that the poor millage was raised.

# ROSE-GROTEFEND WEDDING EVENT

A pretty home wedding of Wednesday afternoon occurred when Miss Ethel Marie Rose, daughter of Dr. and Mrs. Harry J. Rose of New Wilmington became the bride of Edward F. Grotefend, son of Mr. and Mrs. Albert Grotefend of 103 West Wallace avenue.

The ceremony was performed at 4:30 o'clock at the residence of the bride's parents, with her father, Dr. Rose officiating before an altar beautifully embanked with huge bouquets of calla lilies, pink roses and blue delphinium. Only members of the immediate families were present.

The bride, who was given away by her brother, the Rev. Parker E. Rose, was lovely in a gown of white satin made with long skirt and fitted bodice and she wore a veil of tulle medium length, caught with orange blossoms. Her arm bouquet was of brides roses and valley lilies. Miss Elizabeth Rose, sister of the bride, as maid of honor was attired in a gown of white eyelet organdie fashioned with ankle length skirt, puff sleeves and tied with a dull green taffeta sash. She carried a Dresden bouquet.

Ralph Grotefend, brother of the groom, served as best man. Preceding the ceremony Mrs. William J. Caldwell rendered the following piano selections "To Spring" by Greig, "Melody" by Daves and the "Lohengrin Wedding March" by Wagner. After the benediction had been read she played "Blest Be the Tie That Binds" and during the reception the swelling chords of the Mendelssohn Wedding chorus were heard.

A wedding dinner was served, covers being laid for thirty. The bride's table, beautifully decorated with bouquets of sweet peas, blue and pink delphinium, seated twelve guests. A large wedding cake of three tiers graced the center, and tall white tapers in silver candelabra completed the arrangement.

Later in the day, Mr. Grotefend and his bride left for an extended trip. For traveling the chose an ensemble of Navy blue crepe trimmed in white and accessories to match. Upon their return they will reside at 103 West Wallace avenue.

The bride, a graduate of Westminster College, is a member of the Alpha Gamma Delta Sorority, and for the past few years she has been an instructor in the Benjamin Franklin Junior High school. The groom holds a responsible position with the Reynolds-Summers and McCann concern here.

Out of town guests present were Mrs. V. W. Eller Jr., and the Misses Helen and Catherine Eller all of Meadville, Pa.

# MISSIONARY TEA AT THIRD CHURCH

Many social activities have marked the summer days and one of the most beautiful of the week was the tea given in the church parlors of the Third U. P. church Wednesday by the members of the Women's Missionary society.

A profusion of pink ramblers transformed the room into a garden and formed a suitable background for the colorful frocks of the women who attended.

Mrs. John Kocher was in charge of the program, which was made up of music and speaking, with Mrs. W. E. McClure, wife of the pastor of the First Presbyterian church, as the guest speaker. She had as her subject "National Missions" and in talking on this told of her recent trip through the west and the various missions they had visited.

Miss Eleanor Stevenson, blind pianist of Pittsburgh, enraptured the women with her splendid performance on the piano.

Out of town guests included Mrs. Blanche Hanna of Los Angeles, Cal., Mrs. J. Phillips of Mercer and Miss Stevenson of Pittsburgh.

A long tea table was arranged at one end of the room and the pink ramblers centered a beautiful linen cloth upon which shone the silver and china, which was used in serving refreshments. Mrs. Homer Leslie, Mrs. Joseph Hammond and Elsie Gibson presided at the tea tables.

# BALDWIN CLASS PICNICS IN GLEN

The picnic season is attracting throngs to wood and dell and stream for a day's outing and one of the most interesting of Wednesday was the gathering of over one hundred members and families of the Baldwin Bible class and Baird Missionary Society of the Highland United Presbyterian church at the summer cottage of Dr. and Mrs. T. J. Fletcher at Crystal Springs on the Neshannock.

Long tables, centered with summer flowers and arranged on the spacious porch of the cottage seated the women and children and the tables were laden with viands fit for a king.

Concluding the dinner, which was served at one o'clock, many members and the little folks donned bathing suits and enjoyed an afternoon in the water, while the others looked on and enjoyed the sociability of each other's company. Readings were given by little Joe Fletcher and Leah Davis for the amusement of the group.

Mrs. A. R. Batten and Mrs. L. E. Pyle were assisted by efficient committees from the Baldwin Bible class and the Baird Missionary society.

# BUTLER WEDDING OF INTEREST HERE

The home of Assemblyman and Mrs. Charles C. Braham of 321 North Chestnut street, Butler, Pa., was the scene of an informal but pretty afternoon wedding Tuesday at 4 o'clock when their only daughter, Miss Mary Lou Braham, became the bride of Robert James Trotter, son of Mr. and Mrs. J. R. Trotter of Potter township, near Monaca. The ceremony, performed by Rev. J. Calvin Reid, pastor of First United Presbyterian church, assisted by Rev. Dr. Albert H. Miss Hazel Bergland of New Castle as maid of honor was the bride's only attendant. She wore green mouline de sole and a green picture hat, and carried pink roses and delphinium. The wedding music was played by Miss Mary Purvis of Butler, who wore pale pink organdie. Cromwell Ketterer of Rochester, Pa., served as Mr. Trotter's best man.

### State Printery To Switch Type Used For Auto Forms

### Drivers' And Learners' Cards To Carry New Print, State Informs

Type employed by Pennsylvania's state printery in printing its official automobile learners' permits, certificates of title, operators' licenses and registration cards will undergo a revamping within the immediate future, the New Castle Motor Club today was informed by the state.

The new letters will be Gothic angular, a trifle smaller than the vertical style.

Question may be raised as to the legality of the cards, the state announcement says, but official samples of the new-style type were enclosed in the letter which H. Richard Stickle, director of the bureau of motor vehicles, mailed to police chiefs and motor clubs today.

It is said that the change will become effective around October 1.

## Ainey Denies All Charges

State P. S. C. Head Declares  
Chapman's Charges Are  
Entirely False  
**SAYS HE NEVER  
RECEIVED MONEY**

(International News Service)  
HARRISBURG, June 30.—William D. B. Ainey, chairman of the Public Service Commission, Wednesday afternoon entered an emphatic and categorical denial of charges that he had received \$150,000 from the late T. E. Mitten, of the Philadelphia Rapid Transit System.

Ainey denounced the charges filed with Attorney General William A. Schnader by A. A. Chapman, of Philadelphia, a former Mitten company employee, as "apparently a blackmail attempt."

"While I have not always agreed with the governor, I have sufficient confidence in his judgment to believe he will not countenance or truckle to any blackmailing attempt," Ainey asserted.

The chairman issued the following statement:

"Within the last half hour I have been informed of the attack which Chapman has made upon me. This attack is not wholly unexpected, for during the entire present year he has been making threats that, unless he were aided in his dispute with either the Philadelphia Rapid Transit Company, the Mitten Bank or certain individuals, he would go to the governor with a story."

"In his conversation Chapman named several people that he wanted me to see and influence to aid him financially and this I, of course, refused. Until he came to my house in Harrisburg in the early part of this year, I never had a half dozen words of conversation with Chapman in my life."

He continued his threats through indirect sources while I was in a hospital in Boston, and on my return to Harrisburg he came to my home. I was ill in bed. He stated that he had been unjustly treated by individuals, the P. R. T., and the Mitten Bank, and that his business, in which he had been set up by Mr. Mitten, had been taken away from him, and threatened that unless his business were restored, he would, as above stated, go to the governor."

"I told him that I would not use my position as chairman of the Public Service Commission in what was so apparently a blackmailing scheme and if he desired to go to the governor with his story he was welcome so to do."

"While I had not always agreed with the governor, I had sufficient confidence in him to believe that he would not countenance or truckle to any blackmailing attempt."

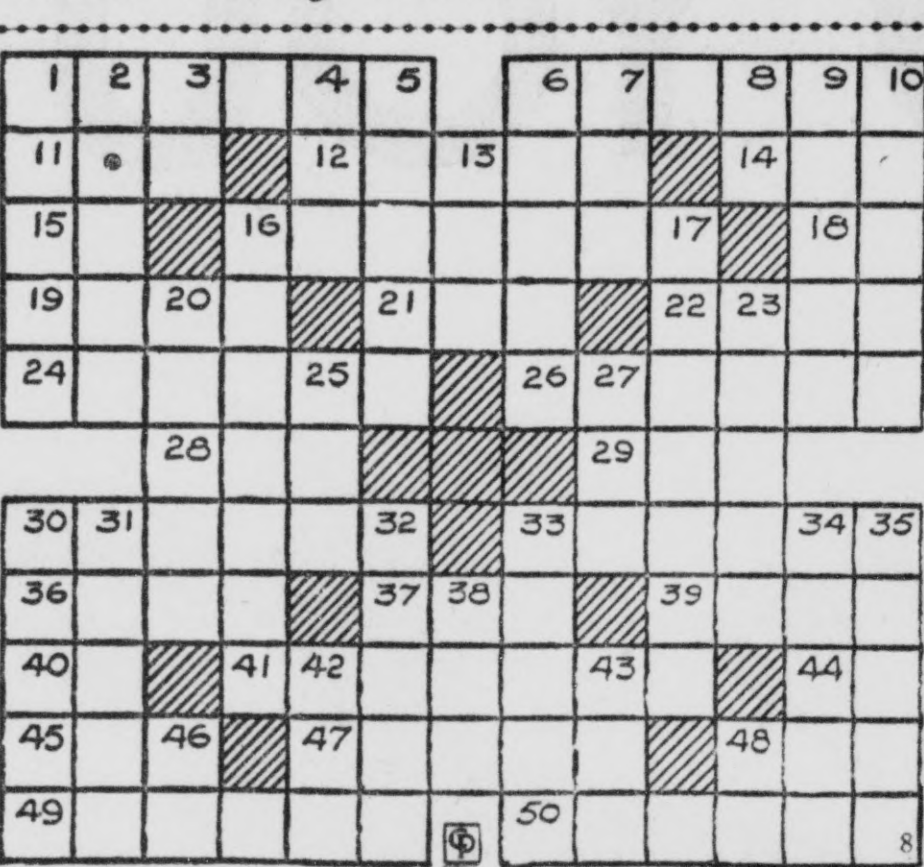

"Shortly after Chapman's visit to my house, I felt it was my duty to advise my colleagues on the commission of his blackmailing attempt, and I thereupon at our next, evening session informed Commissioners Shelby, Brown, Walker, Woodruff, and Gurnberg about it. They have been aware of Chapman's activity in that respect for several months."

"Specifically and categorically, I desire to state that neither T. E. Mitten nor anyone else acting for or in his behalf has ever paid me one dollar, nor have I ever received any money from A. B. Millar whom Chapman charges as being Mitten's representative. This charge is a trumped-up accusation."

"Having attained nearly 70 years of age and having served my country, state and country for approximately 30 years, I resent with all my powers any such aspersion on my public or private integrity."

So that planetoid is 7 million miles from the earth instead of 4 million. Lucky little rascal.

## Says City Can Use State Fund

Division Engineer Says It Is  
Not Necessary To Match  
\$69,000 Fund

**HOPE CITY CAN  
STILL USE FUND**

According to the statement of S. W. Jackson, Division Engineer of the State Highway Department, it is not necessary for the City of New Castle to match the \$69,000 state appropriation dollar for dollar in order to use it or any portion of it. The state is willing to spend the money in New Castle at any time up to June 1, 1933 when the fund will be lapsed and turned back into the general highway funds, he said.

The question of whether or not New Castle must match each dollar was put up to Mr. Jackson in his office in Harrisburg on Monday afternoon by the Lawrence County legislative delegation. His reply was that it was not.

**Can Widen Street**  
Under the ruling of Mr. Jackson, the city can have East Washington street widened, and the only thing the city would have to do would be set the curb. The cost of setting the curb would not be especially heavy and could be paid either by the city or assessed to abutting properties inasmuch as this would be new work and not repaving.

The plan of the department is to do considerable paving on Washington street. From Atlantic Avenue to the bridge the state would like to pave its twenty feet. From the bridge to the public square the street would be paved by the state twenty feet in width. From Jefferson Street to County Line Street the street would be resurfaced. From County Line Street to Franklin Avenue the street would be widened.

Under the law the state paves but twenty feet. However most of the street is but thirty feet wide and the street car company must care for approximately ten feet which would leave the city no paving cost. The city would have to set the curb. Mr. Jackson is hoping that the city will find some way to use the \$69,000 which the state has set aside for this city. If the city council feels that it cannot have the street paved from Atlantic Avenue on through under the plan set out above, it can have the street widened from County Line Street to Franklin Avenue and the state would pave the three additional feet width with brick matching the present paving or with cement.

## Ask Mistrial Verdict Order In Curtis Case

By JULIA MCCARTHY  
International News Service Staff  
Correspondent  
FLEMINGTON, N. J., June 30.—Defense counsel today moved for a directed verdict of mistrial in the trial of John Hughes Curtis of Norfolk, Va., charged with misleading the investigators of the Lindbergh baby kidnappers.

The motion was made on the ground that the prosecution was quoted in a local newspaper as having said that "Curtis is as good as convicted already."

The motion was denied. Basis for the defense motion was contained in the Hunterdon County Democrat, a weekly newspaper. The newspaper was sold on the street near the courthouse this morning. The fifth paragraph of the story read:

"The difference of opinion between state witnesses as to the good faith and reliability of Curtis' clews is not material to his guilt or innocence, the prosecution contends, as is good as convicted already."

The motion was made in the private chambers of Judge Adam O. Robbins.

ing which D. D. Potter, the retiring president presided and in the course of which the addresses of the day were presented.

Judge James A. Chambers was the principal speaker of the day, who commended the leaders of the group who had held the former students together ever since and were able to get out such a large representative group of former students and teachers after a lapse of as much as forty years in some instances.

**Founder Present**

Prof. A. A. Galbreath of Rodgers, O., founder of the College, also spoke on the fact that it was seldom that a group of teachers and students could be brought together in this manner after a lapse of forty years. He spoke of friendships that had been formed in the days of the college and of letters that he had received from those unable to be present, especially that from Judge L. T. Farr A. Lisbon, O., who has had a very material part in helping maintain the reunions and in arranging for the Memory Book that is to be completed in the course of time.

Mrs. Anna Galbreath, wife of the founder, and known as the mother of the college, then recalled the days of the college, including incidents of sadness and of joy that came to her attention in the days of the institution. In particular did she mention facts concerning the famous baseball pitcher "Rube" Waddell, who was a student in Volant College.

Prof. Thorp of Painesville, O., recalled numerous incidents of the college days during his remarks, while Prof. Hawk presented a resolution of sympathy to be sent to Prof. C. F. Ball, assistant county superintendent of schools, who has been seriously ill. He was prominent in the affairs of Volant College.

Miss Olive Clinefelter, secretary, presented her report and the names of persons invited but unable to be present, including Colonel J. A. Thompson of Boise City, Idaho, who inquired concerning members of the classes in the Nineties.

**Memory Book**  
There was much discussion concerning the Memory Book, for which much material has been gathered and which it is hoped to have ready at least by the time of the next reunion.

The following Memory Book Committee was named: R. A. Perry, East Liverpool, O., chairman, Prof. and Mrs. A. A. Galbreath, Prof. J. C. Syling, Mrs. James A. Chambers, Miss Mary Minnehan, Katherine Edie, Prof. George Daniels, Reid English, Mrs. Hettie Thompson, Mrs. Wilmetta Kline, Mrs. Rhoda Oakes, Mrs. Maude Henderson, Mrs. Anna Finney, Mrs. Marjorie McConnell, Mrs. George Patterson, Mrs. Maude McCracken, Mrs. Charles Wilson, Clark Blevins, Clyde Alley, Mrs. Scott Hamilton, Mrs. Nannie Edie, Matthew Howard, Milton Houk, James Newton, Mrs. Emma Wilson, Mrs. Leslie, Mrs. Maude Reno, Mrs. Clyde Lockhart, Mrs. Lizzie Reno, Mrs. Lydia McConeghy, Mrs. Nellie McCartney, D. ## Reed Ashamed Of Vote He Cast For Farm Board

Says Half-Billion Dollars U.  
S. Appropriated Has  
Been Wasted

BLAMES BOARD FOR  
PRESENT LOW PRICE

By ARTHUR C. WIMER  
Special Washington Correspondent  
New Castle News

WASHINGTON, D. C. June 30.—Senator David A. Reed is "more ashamed" of the vote he cast for the creation of the federal farm board than of any other votes he has cast since he entered the senate.

Reed himself is authority for this statement. He told the senate so this week in opposing a larger appropriation for the board. "I do not mean to put the blame for this mess upon the individuals who compose the farm board," Reed declared in criticizing the results of the board's work. "The blame is principally upon Congress. I, for one, want to say that I voted for the conference report in which the farm board was created and I am more ashamed of that vote than of any I have cast in the ten years since I have been in the senate. I accept my share of the blame."

Reed declared that "down some rat hole" has gone the \$500,000,000 given the farm board "which we took from American taxpayers who paid it with the utmost difficulty." He said certain senators from wheat and cotton states "have convinced me that the farm board is the principal trouble today with the price of wheat and cotton; that if it were not for those great stocks overhanging the market in the hands of the farm board, the natural working of economic forces would bring about higher prices for both of those commodities."

Motorists who look for trouble-free tire service, and expect to get it at the lowest cost for miles of service, are turning now to ALLSTATE, the tire that has proved its right to rank the field. Prof. Phil C. Huntly, a truth-seeking scientist from the Armour Institute of Technology, supervised a test of more than 2,000,000 tire miles. ALLSTATE, along with 6 other leading brands, was put through the paces over every kind of a road . . . from Ohio to Arizona. Day and night the test cars whizzed along, at 50 miles an hour running speed, 24 hours a day. Tires were rotated on wheels and air pressures were checked at periodic intervals.

And, after more than 7 months of this terrific, grueling service, final figures were computed. It was then found that ALLSTATE Tires had a far greater average of total mileage than any other. It was proved that ALLSTATE delivers far more miles-per-dollar than any of the nationally advertised competitors.

ALLSTATE was not only equal to or better in quality than any other leading tire tested, regardless of price, but it also delivered 63% more mileage-per-dollar!

NOW, today, at Sears Roebuck and Co., you'll find this great tire, victor in the 2,000,000 tire mile test, at the lowest prices ever quoted by Sears for its quality. These prices, you must remember, are TAX FREE . . . they do NOT include the government tax. And they're effective so long as present quantities last. Better hurry in for yours!

## Will Rogers Nearly Stampedes Democrats As He Takes Platform

Democrats Very Harmonious As They Listen To Celebrated Humorist

Other Interesting Sidelights Of Chicago's Sweltering Convention

(International News Service)  
CHICAGO, June 30.—Forecast of the first presidential nomination ballot, based on instructed delegations, claims of rival camps and preliminary ballots on other issues, today indicated the following approximate result: Roosevelt, 639; Smith, 153; Garner, 100; Ritchie, 55; White, 52; Baker, 25; Byrd, 27; Traylor, 44; Reed, 36, and Murray 23.

The light of battle was in Al Smith's eyes when he quietly ascended the platform. There were tears in those eyes a moment later when the delegates and spectators joined in a roaring tribute to the "Happy Warrior."

They roared again when he cried: "If there's anything the American people dislike, it's a dodger."

Conventions are OK with the delegates but they filed into the stadium today hoping for a re-enactment of yesterday's "show."

Will Rogers stampeded the convention. If he hadn't had the good sense to leave the platform quickly, he might have wound up with the presidential nomination.

"If I'm rotten," grinned Will, "I don't owe you anything because I ain't getting paid for this."

Will had the delegates so harmoniously that Al Smith was discovered lighting a cigarette for Jim Farley.

Eddie Dowling took the gavel and introduced all and sundry, particularly the latter. He introduced John McCooey of New York twice because

as he thoughtfully explained, "There's so much of him."

Eddie wanted to close the show with a bang. He tried to fix up an animal act but Huey Long had already left.

Al Smith lost a close battle to a bell boy this morning. Al left a call for eight a. m. but the boy thundered on the door at six. When Al thundered back a Smithian protest the bell boy said: "I just wanted to tell you that you only have two more hours to sleep."

## Cub Scouts Have Great Camp Outing

Competition In Hut Inspection Is Keen—News Of Youngsters

Jim Higgins fired the cannon awakening the twenty four cubs at Camp John M. Phillips to welcome a bright sunny day.

Inspection competition is still keen between the Lions Hut and Volant. Lions won today by one point with 95 per cent. The cubs in that hut had spelled out the name Lions with stones in their front yard.

During instruction period Bob Moore took the cubs interested in campcraft into the woods and taught them to build fires, using only shavings and wood with two matches. After the instruction a race was won by Tommy Jones. Clyde McCready had the rest of the camp identifying leaves for nature study. First they brought all the leaves they knew to the instructor for checking and then they showed many they had seen often enough but couldn't name. Jack Lipp and Ted Sprout of New Castle seem far in advance of the rest.

Well, Ellwood City's challenge issued by cubs from that district the first day of camp, to a mullball game was accepted. The game was played in the afternoon and the final score is Ellwood City 20, New Castle 14. Tommy Jones, the Ellwood City star, seemed in great shape collecting a home run, three base hit and a two ball hit. Better luck next time, New Castle.

After games and a hike in the evening the boys lighted their first real campfire. Peppy singing of camp songs and story telling featured the program. Camp Director Le Roy Norton told the cubs of the outstanding hero of the World War Sergeant Alvin C. York and his thrilling capture of 132 prisoners. Scouts from New Castle troops 18 and 15 were in camp for the day planting pine trees furnished by the State. Those planting under the leadership of C. May were: Ed Harper, Jim Hartland, Bob Evans, Dick Johns, Dave Garvin, Dick Hoffmaster, Art Kohn, Tom Cunningham and Jack Ligo of 18 and Frank Shaffer, Walt Conover of 15.

## Democratic Party Platform Plank Asking For Repeal

CHICAGO, June 30.—The plank in the Democratic party platform declaring for repeal of the Eighteenth Amendment is as follows: We favor the repeal of the Eighteenth Amendment. To effect such repeal, we demand that the Congress immediately propose a constitutional amendment to purely representative conventions in the states to act solely on that proposal. We urge the enactment of such measures by the several states as will actually promote temperance, and effectively prevent the return of the

saloon and bring the liquor traffic into the open under complete supervision and control by the states. We demand that the Federal Government effectively exercise its power to enable the states to effectively protect themselves against importation of intoxicating liquors in violation of their laws. Pending repeal, we favor immediate modification of the Volstead act to legalize the manufacture and sale of beer and other beverages of such alcoholic content as is permissible under the Constitution, and to provide therefrom a proper and needed revenue.

division, overwhelmed Jack Crawford of Australia in straight sets, 6-2, 6-1, 6-3, in their semi-final match, while Mrs. Moody made characteristically short work of Miss Mary Healey of Ireland, 6-2, 6-0. King George and Queen Mary were among the enthusiastic throng which sat in an intermittent drizzle to witness the brilliant play. Mrs. Moody's victory made it certain that the women's title would go to the United States, for she will meet her fellow-Californian, Miss Helen Jacobs, in the final.

Observations  
In 7th Ward

The wooded hill between North Cedar and North Liberty streets, which was partly cleared this spring, then plowed and planted, is coming along in fine shape. The garden is so successful that it will probably be cleared more extensively next year.

A little yellow peep was seen running panic stricken along Mahoning avenue alone, without a mama chicken, sisters nor brothers. Must have escaped from the hatchery.

If you know of any Civil War veterans who were buried in the Valley View cemetery, report to the receiver, Mrs. F. R. Holliday. A record of the graves is being made so that markers can be placed.

Tennis Court Is  
Nearly Completed

The new tennis court on North Liberty street will be ready for use in a few days if the weather continues to be dry. One of the young men who built it was engaged in leveling it off with a roller Wednesday afternoon. All it needs now is to be marked and equipped with a net.

## LIBRARY OPEN

## HOT OR ICED

## Begin now to make good iced COFFEE

Here is the way to do it • Make coffee by your favorite method but use about twice the usual amount of coffee for each cup of water to allow for dilution by melting ice. Remember, only real coffee flavor can stand icing. So use coffee that you know is full of flavor, that you know is fresh, and that is ground according to your method of making coffee.

Here are three blends of fresh coffee . . . different in flavor to cover the entire range of coffee tastes, but each of unsurpassed quality. And remember, the coffee you like best is the best for you, no matter what it costs.

## Season For Bass Opens On Friday

Many Favorite Bass Streams  
Will Be Mecca For  
Fishermen

HARRISBURG, June 30—The North Branch of the Susquehanna, regarded as one of the outstanding bass streams in the east, is expected to attract hundreds of fishermen on July 1, the opening day of the bass season in this State, Oliver M. Deibler, Fish Commissioner said today. Thousands of bass are taken from this stream each year.

Pennsylvania boasts many good bass waters, and these game fish have staged a remarkable comeback during the past five years. Included in the list of good bass streams are the Upper Delaware in the northeastern part of the State, French Creek in northeastern Pennsylvania, Connoquenessing Creek in the western part of the State, the Loysock in the north central section, the Juniata river, Raystown Branch of the Juniata and the Conodoguinet creek in the central section.

Lake Gordon in Bedford county, Lake Wallenpaupack in Pike and Wayne counties and Conneaut Lake Crawford county, furnish good fishing. Streams in the southeastern part of the State that rank as bass producers are Nesheaminy creek, Bucks county, the Perkiomen, Montgomery county and East and West Brandywine creeks in Chester county.

Pine creek and Bald Eagle creek in Clinton county and Penn creek in Union county are good bass streams.

Water and weather conditions govern bass fishing to a major extent, the Commissioner said. Some of the finest catches of bass are made when the water is clearing following a period of heavy rains. At this time, helgramites and stone catfish rank high as natural bait.

## New Period For Tests Of Autos To Start July 1

Continues For Next Three  
Months; Same Safety  
Standards

HARRISBURG, June 30—The second compulsory motor vehicle inspection period of the year starts July 1. It will continue until mid-night, September 30. A three months enforcement period will follow. The law requires inspection by an official inspection station of every Pennsylvania registered passenger car, motor truck and motor bus in operation. This is regardless of any previous inspection.

The "Inspected and Approved" stickers issued during the first inspection period are not valid after July 1. Stickers for the second period will be ultramarine blue and gold. The number of the station making the inspection will be perforated in them by the Department of Revenue. The lower part of the sticker has place for punching out the month and the date of the inspection. The stickers are waterproof, will not wrinkle and cannot be removed whole.

Continuous supervision of official inspection stations will be maintained during the campaign by the State Highway Patrol, Secretary Clyde L. King said today. Any irregularity on the part of a station will result in immediate suspension of its appointment, the Secretary stated. The requirements as to adequate space, tools and equipment will be rigidly enforced. Stations are required to make a report to the Department on every vehicle presented for inspection.

Stations also must keep records of date of inspection, registration number of vehicle inspected, name of owner and address and speedometer reading, whether or not a sticker was affixed, inspection cost, if a fee was charged and total inspection and repair cost. These items must be recorded, the type of record being left to the station owner.

Posters setting out in detail the nature of the inspection required will be displayed in every station. This is for the protection of station owner and motorists.

## AS GASOLINE GETS OLDER GASOLINE GETS WEAKER

## STALE GAS IS FEEBLE—fresh GAS PACKS POWER

LEAVE an uncorked bottle of gasoline around your house and what happens? It evaporates—the light ends—the "easy starting" elements—go slowly off into thin air.

But more than evaporation takes place as gas gets stale. A chemical change occurs. That's why the older gas gets, the weaker it gets. That's why gas can get so stale—so "powerless"—it won't even kick over a motor!

And as gas gets stale, it gets stickier, too—is more apt to clog valves. And it decreases in anti-knock value—is more apt to knock and thump.

The whole petroleum industry has long known these facts. Gulf has worked on the problem—and has now perfected a system that assures the motorist of getting FRESH gasoline. Here's how...

Gulf makes the best gas that can be produced—and so refines that gas as to take out the very elements which cause rapid deterioration. Hence, Gulf gas stays FRESH longer.

Next, Gulf has organized its distribution system to rush that FRESH-MADE gas to you in a hurry. It handles gas as though it were perishable

food. The huge Gulf refineries have been carefully placed in many sections of the country, so that it is easily possible to rush FRESH gasoline to every one of the 45,000 Gulf filling stations. A vast fleet of tank trucks speeds FRESH gas to Gulf stations every day in the year.

When you buy gas you're really buying power. Stale gas can't give you all the power you pay for. Get FRESH gasoline. FRESH-MADE—delivered FRESH. Get Gulf. Use nothing else. Your motor will have more power. It will be cleaner and quieter.

# DEMOCRATS PREPARE TO ADOPT PLATFORM

## Minor Planks Are Considered

Party Will Be Pledged For  
Repeal Of 18th Amend-  
ment

## ECONOMIC PLANKS CAUSE CONTROVERSY

By WILLIAM K. HUTCHINSON  
International News Service Staff  
Correspondent

CHICAGO, June 30.—After pledging the party to outright repeal of the 18th amendment, the Democratic convention today must dispose of minor revolts against the banking and economic planks before finally adopting its 1932 platform.

A minority report on the banking plank was filed by William Gibbs McAdoo, calling for inclusion of a clause pledging enactment of legislation to "make safe against loss, depositors of member banks in the federal reserve system." He was asking for convention endorsement of the Glass-Steagall bill, which has languished in congress for many months. There was a possibility he might win, since the resolutions committee rejected it by the narrow vote of 27 to 22. The economic revolt was led by Governor William H. (Alfalfa Bill) Murray of Oklahoma. He proposed eight new economic planks, including a demand for cash payment of the bonus. Representative William P. Connery of Massachusetts served notice he would ask a record vote of the convention on the cash bonus issue, but he must get the consent of one-fifth of the delegates to have the roll called. He faced defeat, either viva voce or by roll-call.

Murray's seven other proposed planks dealt with remonetizing silver, conscription of property as well as men in war, greater control of the banking industry and for inflating the currency to the point maintained during the Wilson administration. The Oklahoma's personal platform will be discarded without a roll-call.

The remainder of the platform pleased almost everybody in the convention. The declaration against cancellation of war debts, the demand for strict enforcement of anti-trust laws, the farm and unemployment relief planks, the pledge to protect the investing public, the proposed regulation of stock and bond issues—all met with instantaneous and rather enthusiastic approval from the delegates. Above all, the platform's brevity—1400 words—and its pungent attacks on Republican policies found favor.

## Ellwood Looks To Future With Well Kept Gardens

ELLWOOD CITY, June 30.—Opportunity was given to all this summer to have a garden. The National Tube Company and the City arranged that gardens could be provided for those wanting them.

Very few fields lie dormant, or filled with tall weeds as in other years. In their place is a well kept garden where many vegetables are being grown, and many of these gardeners are proudly showing their onions, lettuce, radishes and messes of peas, which they enjoy more for having worked for it.

Isidor Kraus donated more than twenty-five acres of his farm estate on the New Castle highway, for Shelby gardens, and has the pleasure of watching men going to their garden daily, often times accompanied by their wives and children who help to hoe and carry water from a spring nearby.

On Sunday these families find it a pleasure to take their lunch with them and gather in little groups to discuss the corn, potatoes, beans or what have you.

The mechanical department has forty-eight gardens in this acreage, the bar mill, twenty, and office force has twenty-five. Each plot is approximately forty by one hundred and fifty feet and was first ploughed and harrowed by the Tube Mill company. Every man of the Tube Mill

whether a boss or mill hand, whether employed regularly or not has been given the chance to have his own garden where he can raise enough to keep his family during the summer and carry him into the winter.

One of the chief executives who is seen each evening carrying his hoe and who is usually accompanied by his wife dressed to correspond with her husband's overalls, claims that it is much better exercise than golf. (He never had a garden before and he can hardly wait until he locates his first potato.)

The vast space in Ewing Park is today a place for growing things. It is the smart thing to have a garden.

There were several amusing incidents occurred when the plots were being planted. Men who had never worked in the soil found the advice on how to plant potatoes, corn, etc., very confusing. In one case after the young man had worked an entire morning planting potatoes a certain way, a friend came along and advised him differently. He changed them and later was told by another friend, that they should be planted closer. By this time he was more than tired and refused to make the change. Today his potatoes are ahead of those planted by the men giving him advice.

There is a faun so tame that it insists upon drinking out of the spring used by the boys for the same purpose, and this is in itself a problem which is yet to be solved before the boys return at the end of the week.

## Umpires Demands Are Turned Down

Lawrence County League Unable To Pay Increased Rate

NEW UMPIRES TO BE SECURED

Lawrence County Baseball League officials have decided to secure new umpires instead of granting the demands of the Umpires' Association, which has requested increased pay for umpiring games in the league. The present rate is \$1.50 per game. The umpires have asked \$2.00. The arbiters will finish up their work Saturday, and the second half of the schedule will start Monday. League umpires adopted the view that baseball is not paying and that at some games, according to President Samuels, the teams' receipts do not amount to the cost of paying umpires, which has been \$1.50 per game. Two umpires are employed at each game. This action became known at the monthly meeting of the Lawrence County League last night, when a second half schedule was arranged. It will become effective Monday. It is possible that a team to take the place of Universal Sanitary will be secured, according to Samuels.

### THE IMPORTANCE OF SLEEP

Professional athletes while training are compelled by their trainers to be in bed early every night. They know that sleep is essential to strength and stamina. So if you would fit yourself for any sport or game you must get at least eight full hours sleep every night. The boy or girl who keeps late hours and generally disregards the importance of sleep never can excel in any sport. You should sleep in a room with the windows wide open, winter and summer. If you want to be healthy and strong. Do not fear taking cold; have sufficient bed clothes and there will be no danger. Do all your reading before you go to bed. When you have retired compose yourself and sleep soundly for eight full hours.

Oakland Sluggers nosed out the South Side Ramblers 4 to 3 in a baseball game at Cedar street field. The game was a pitchers' battle.

Presnar had the only extra-base hit as the Oakland Sluggers beat the Ramblers in a close one. Wogger was a heavy hitter.

Lewellyn of the Imperials played in two games yesterday and in each contest hit a home run.

In two games yesterday the Twilight teams won. Sida Jerkers beat Scarazzos and Mahoning won from Bessemer.

Blews got a double when the East New Castle Merchants upset North Highland.

E. Altman handled 13 chances with one error at first for the Highlanders. Clements accepted eight chances without an error.

M. & D. Midgets mullball team handed the DuShane Midgets a 12 to 8 setback at Taggart field with Gensante starring.

Joseph's Nine defeated the Mercer Stars 7 to 4 in a mullball game at B. & O. field, with Mike Joseph the big star.

### SIX "PLIES"?

You can count six layers of cord here, but the first two under the tread in this tire (or in any so-called "six-ply" tire built this way) do not run from head to head. Some tire-makers count these as "plies," but they are really "breaker strips," so we call them that.

## Goliath and Ga-Ga Gladiator

This looks as if it's going to be another "battle of the century" with the little fellow holding the advantage. The principals in this gigantic mat struggle are Charlie Stack, prominent Boston grapple man, and his five-months-old son, Charlie, Jr. The little matman is still too young to know anything about the doctrine of "honor thy father," so he's putting the screws on the "old man" with a scissors hold on the arm.

Low Massey Is

Winner Of Bout

(International News Service)

PITTSBURGH, June 30.—Low Massey, Philadelphia lightweight, notched another victory in his belt today. His latest victim is Ray Miller, Detroit, who took a terrific lacing in every round of a ten-round scrap here last night.

The venomous left hook that only

a few years ago made Miller a terror to opponents apparently has lost its sting. He was slow afoot, off on timing and seconds late on countering.

Massey, on the short end of the betting, turned in a flashing, aggressive fight. Round after round he forced Miller around the ring. The latter fought a defensive battle throughout.

## Benefit Game At Elders Tonight

Elder A. C. and the Meadville Collegians will play a nine inning baseball game at Elders field tonight, starting at 8 o'clock. The game is a benefit for Paul Layton, of the Elders team who was severely injured several days ago in going after a foul fly.

The Elders have booked a mighty fast team for this benefit game. The Meadville boys will bring a real team here. The Elders hope to realize a nice sum from the game tonight to help defray the expenses of young Layton.

Maybe rich men just seem fewer, Mr. Schwab, because the property is in the wife's name.

(International News Service)  
NEW YORK, June 30.—The stock market found the overnight news more to its liking and staged an early flurry in the upside today. The advance was halted, however, by pressure on individual issues and new lows were made by Procter & Gamble, General Motors, Dupont, National Biscuit and Western Union. Early gains of 1 to nearly 4 points were wiped out and most of the leaders went lower.

Auburn spurted almost 4 points. Other strong spots were U. S. Steel common and preferred, Case Threshing, American Tobacco B and American Telephone.

Utilities were better under the leadership of Consolidated Gas. Ralls were helped by announcement the I. C. C. would approve the new loan to the St. Louis-San Francisco. Copper shares were depressed.

Bonds improved for the first time in a week. Cotton extended yesterday's rally. Wheat was easy.

## Wales' Wager

The sum of 25 pounds (about \$90) hangs in the balance, pending the fate of the straw hat which the Prince of Wales, heir to the British throne, is shown wearing here. Wales made a bet with his sister, Princess Mary, that he could not popularize the hat by just wearing it. But his royal sister insists that he can. The winner is to donate the amount of the wager to charity.

## Obese-Breeze-Ease

"Keep close to the breeze" is the slogan of this not-so-sovereign mortal. He is Mayor H. W. Fisher of Philadelphia, N. J., delegate to the Democratic National Convention in Chicago. Hizzoner, by reason of a little excess poundage, is feeling the heat in the Windy City. But as long as he can stay this close to the fan, he finds life quite bearable.

## A Couple of Boys from Home

Just two Oklahoma boys who made good, photographed at the Democratic National Convention in Chicago. Governor "Alfalfa Bill" Murray (left), candidate for the Presidential nomination, seems amused at a yarn being spun by Will Rogers.

## Long, Long Trail to Work

This is the most cheerful picture that has appeared for many moons, especially to the men who form the subject of it. They are employees of the assembly plant of the Ford Motor Company at Des Moines, Iowa, shown as they staged a parade to celebrate the reopening of commercial activity and their return to work following months of idleness. The corner in the extreme background is probably the one where prosperity has been hiding.

## At Eucharistic Congress

Cardinal Lauri, the Pope's legate to the Eucharistic Congress, is shown as he listened to welcoming addresses on his arrival in Dublin for the opening of the great religious pageant. On the left is President Eamonn de Valera of the Irish Free State. The Vatican representative is in center. Ecclesiasts from all over the world gathered in the Irish capital for the festival.

"Stick 'em up!" is a good slogan if applied to the corners of the mouth.

Of course congressmen have ability, but it isn't, Alas! the ability to agree.

## Gloria's Baby

An already famous daughter of a famous mother makes her camera debut in this picture. The little miss is Michele Bridget Farmer, three-months-old daughter of Gloria Swanson and Michael Farmer. The photo was made in London where little Michele was born.

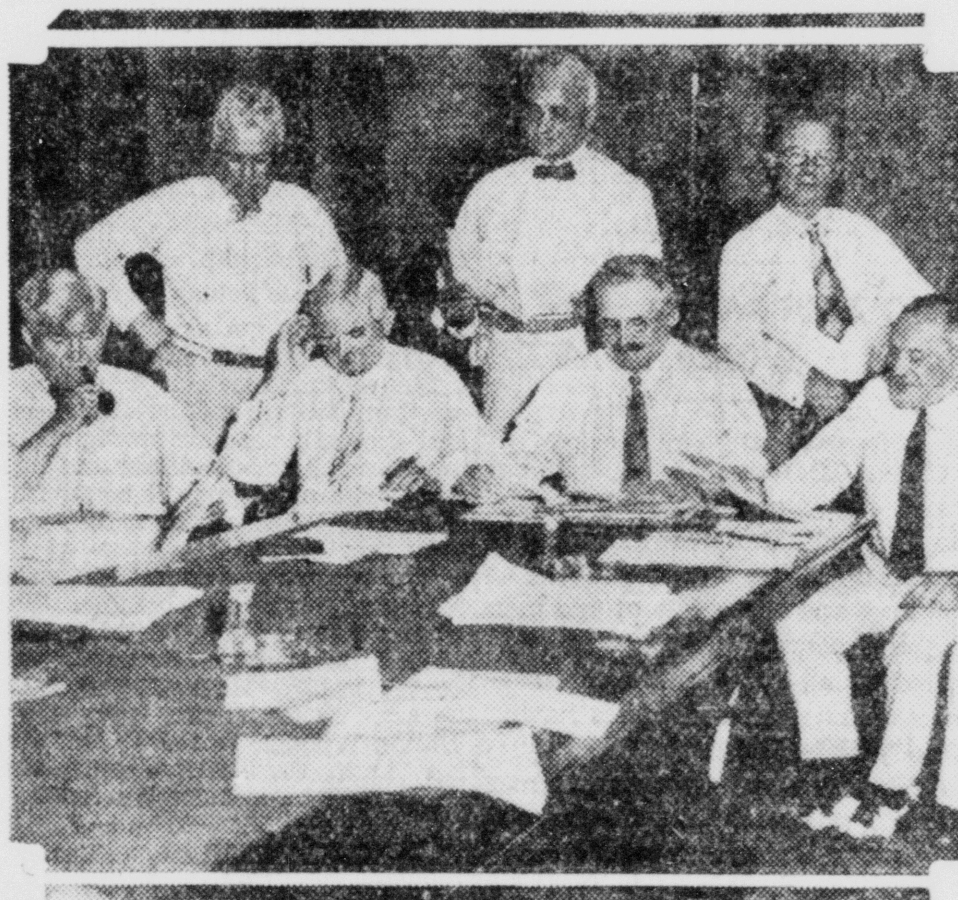

## Cheating Davy Jones Fried's Hobby

\* \* \*  
Skipper of President Roosevelt, Who Saved Reichers, Has Brilliant Record of Sea Rescues. Honored by Many Nations.

The recent rescue of Lou Reichers, forced down at sea off the Irish Coast while attempting a flight from Newark, N. J., to Paris, by Captain George Fried, of the President Roosevelt, adds one more laurel to the crown earned by the heroic skipper for a record of life-saving that is probably unmatched in the history of the sea. Fried makes a habit of being on the spot just at the moment when he is most needed. Back in 1926, Fried won international fame by his rescue of the entire crew of the British freighter Antiope, during a raging gale in the North Atlantic. For that feat of mercy, Fried was decorated by King George of England, thanked by President Coolidge and received the acclaim of the entire world. Again in 1929, Fried crashed into the limelight when he raced through a terrific storm for 350 miles to the assistance of the Italian freighter, Florida, foundering 700 miles off the Virginia Capes. First Officer Harry Manning was highly praised by Fried for that episode, which resulted in the rescue of 32 officers and crew of the doomed ship. Premier Benito Mussolini of Italy was amongst the thousands from all over the world that cabled their appreciation of Fried and Manning. The number of times that Captain Fried has performed minor works of mercy at sea are legion, but without those, his epic of the Antiope and Florida constitute a record of which the gallant knight of Neptune might be justly proud.

## Coats Off in the Capitol

Doubtless many delegates to the Democratic National Convention at Chicago found themselves sighing for the comparative coolness of Washington, D. C., as they sweltered in the Windy City. But the national capital is also suffering from lack of balmy breezes, as witness this group of solons, peeled to the shirt while discussing unemployment relief bills now before Congress. In the group are left to right (seated): Rep. Rainey, Speaker John N. Garner, Sen. Norbeck and Sen. Wagner. Standing are: Rep. Bacharach, Rep. Treadway and Rep. Collier.

(International News Service)

LAUSANNE, June 30.—The first big step toward solving the tangled problem of reparations appeared imminent today.

Ramsay MacDonald agreed as the first measure to strike the word "reparations" from common international usage and substitute in its stead the appellation: "Germany's contribution to the reconstruction of Europe."

SHEPPARD FOR  
RESUBMISSION

Says He Would Favor Resubmission If State Votes For It

(International News Service)

WASHINGTON, June 30.—Blow to the extreme dry cause was dealt today when Senator Morris Sheppard (D) of Texas, co-author of the 18th amendment, declared for resubmission of the 18th amendment for repeal.

Sheppard's statement was qualified, however, by the proviso that if the Democratic primary referendum to be held in Texas next month opposes repeal, he will not vote for resubmission of the amendment.

The result insured an all-American final. Mrs. Moody will meet her fellow-Californian, Miss Helen Jacobs in the title encounter, with everything indicating that Helen will regain the title for which she failed to compete last year.

PITTSBURGH, Pa., June 30.—A smouldering, shabby shoe, size seven today confirmed police in their theory of incendiarism concerning a fire which practically destroyed the home of Mr. and Mrs. Joseph Skwartz.

The shoe was found near the home. Several neighbors saw a man, his clothing ablaze, run from the flaming home. They gave chase but he rolled in the grass, extinguished the flames and fled.

## ROAMING

With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

Just now there isn't a much prettier sight in the eastern part of the United States than the Allegheny mountains, particularly those ridges of the Alleghenies that separate us from the eastern portion of Pennsylvania.

They have a beauty of their own for every season of the year and what season is the prettiest depends upon your taste. Right now Nature is full blown. The spring growth is completed, the trees are carrying a full complement of their green garments, and it's impossible to make much speed if you have any eye for beauty at all.

One of the sights is Blue mountain down near Huntingdon. Some peculiar atmospheric condition hangs a blue haze over the mountain side and yesterday afternoon it was most pronounced. No need to ask why it is called Blue mountain.

Another stretch that catches the eye and slows up the car is Gallitzin Hill, named after that old prince who settled in Pennsylvania a century or so ago. Hemlock and spruce and pine dot the hillside, with a matting of underbrush that fills out the picture and gives it the appearance of some giant emerald carpet.

It's the season of the year when our neighbors from other states are on the highways enjoying Pennsylvania's scenery. Kansas and Colorado, Maine and Connecticut, Wisconsin and Minnesota, they're all on the highways and as they pass you or you pass them there's a feeling of pride in the fact that this is your state.

There's a new member added to the wild family that has adopted the cherry tree at our place, a chipmunk. Attracted by the possibilities of free lunches, the chip moved in a day or so ago, and this morning could be observed sitting on one of the rocks, gizzling cherries.

There is one leather lunged bird that perches on the topmost branches that has a voice like a buzz saw cutting through an oak knot. He seems to be inviting the bird life of the east side and it's a question now who gets the cherries.

Surprising how a garden can grow in a couple of days. The Kansas gayfeather has added inches to its plumes, the sedum is ready to bloom and the roses are as thick as hops. It's worth going away for a few days just to get back and see the improvement in the flowers.

## To Keep Office Open Noon Hour

County Treasurer William O. Pitts Announces Change Beginning July 5

County Treasurer William O. Pitts announced this morning that beginning on July 5 and continuing until August 1 the treasurer's office will be kept open during the noon hour to receive taxes. The five per cent discount, which is now in force, will be in effect during the dates named. Custom has been to close the treasurer's office during the noon hour, but it has been found that quite a number of people find it a convenient time to pay. Usually there is a great rush to pay taxes toward the close of the time when the discount is taken off. Treasurer Pitts desires that all who can, pay as early as possible.

## Chicago Gunman Shot To Death

Notorious Holdup And Kidnap Gang Believed Smashed With Killing Of Man

TWO MEN AND WOMAN TAKEN

(International News Service) CHICAGO, June 30.—A criminal gang, engaging in holdups, safe-blowing and kidnaping, was believed broken up today with the killing of one man and the arrest of two men and one woman. The arrests completed round-up of the group, seven other suspected members having already been seized.

Geary "Popeye" Carson, a former convict, was shot and killed on a busy street corner last night by Detective Harry Miller, one of three officers especially assigned by Mayor Anton J. Cermak to round up the gang.

Carson's companion, Bob Savio, was captured as he was fleeing to a parked automobile. Mildred Flannigan, seated at the wheel of the car, was also arrested. A few minutes later, Ernest Neisich, believed to be the last remaining member of the gang, was seized in a rooming house.

Detective Miller and his fellow officers, Harry Lang and Peter Walsh, were attempting to arrest Carson and Savio when the former drew a gun and pressed it against Walsh's chest. Miller then shot and killed the bandit.

## Hold Conference At Court House

West Pittsburg Road Boomers Want Data With Reference To Grade

Meeting of property holders on the northern end of the West Pittsburg road, was held last night for the purpose of discussing a desired improvement of the road. There are several property owners near the intersection of Moravia street, who have not yet signed a release of damages. They do not know whether or not they will be damaged, but desire information regarding the grade.

A committee was appointed to meet with the county commissioners this morning to confer regarding grade. As several surveys have been made by the state highway department, the commissioners were unable to give any definite information until they can find out which survey will be followed.

Practically all of the property owners with the exception of the Hawthorne and Sward interests, and the property holders near Moravia street intersection, have signed releases. The Hawthorne and Sward interests say they want to go along with the improvement, but want more data on the survey, according to C. H. Akens, who represented them.

It is understood that the county commissioners favor the improvement of the Coalstown-New Wilmington and Pulaski-New Bedford roads first, but West Pittsburg road residents are insisting that their road be taken up first.

Commissioners have not yet received a reply to their recent letter to Highway Commissioner Samuel Lewis in which they stated that the county is ready to go ahead with the Wilmington and Pulaski roads.
